

## Timetable for applicants

Application in the event registration site	6 February 2009
Notification of registration acceptance by the Organising Committee	13 February 2009

The application for participation is individual. Applicants recommended by National Authorities and/or National Standardisation Bodies should provide evidence of that (support letter, etc.) by 6 February 2009 by email (preferably), fax, or mail to the Workshop Secretariat.

## Attendance fees

No registration/attendance fees are requested from the participants. They are responsible for their own travel, accommodation and subsistence costs, which will not be reimbursed by the European Commission.

The participants may find financial support from their National Administration, industry or from other sponsoring sources. The participants should take care of their own travel and accommodation arrangements.

## Event registration site

The event registration site will be open from 24 November 2008 at <https://jrc-meeting-registration.jrc.ec.europa.eu>.

Applicants will be asked to create a user account, unless they have created one previously. Then, they should login, click on the tabs "Brussels", "April 2009" and "Eurocode 6 Background and Applications" and proceed with the registration for the workshop.

## Venue

Charlemagne Conference Centre, rue de la Loi 170, Brussels, Belgium.

## Language

English, no translation will be provided.

## EN 1996 DESIGN OF MASONRY STRUCTURES

A dissemination of information for training workshop

2-3 April 2009, Brussels

Organised by  
European Commission:  
DG Enterprise and Industry  
Joint Research Centre

with the support of  
CEN/TC250  
CEN Management Centre  
and Member States

## Objectives

This workshop intends to contribute towards the transfer of background knowledge and expertise of Eurocode 6 writers (CEN/TC250/SC6) to potential trainers on national level.

The principal objectives of the workshop are to:

- transfer knowledge and information to representatives of key organisations/institutions, industry and technical associations involved in training on the Eurocodes in Member States;
- enhance the training potential of the Member States by providing state-of-the-art training material and background information;
- contribute to the consistent and timely implementation of the Eurocodes;
- facilitate exchange of views, networking and cooperation.

## Participants

Any individual professional interested in training on Eurocode 6 may apply. However, average three participants from each country will have the possibility to participate.

Priority will be given to participants recommended by National Authorities and/or National Standardisation Bodies.

Participants can come from EU Member States, EFTA Member States and EU Candidate Countries.

In case the number of applications exceeds the capacity of the conference room, applicants will be accepted on the basis of the date of registration.

## Workshop material

A “training package” consisting of the slide presentations and the technical papers on the lectures plus all other relevant material will be distributed to the participants.

All this material will be subsequently made available on the “Eurocodes: Building the future” website.
